ELIGIBILITY

EU citizen. Eligible to work in Ireland; **no sponsorship required**.

TECHNICAL SKILLS

Languages
Dart, Rust, C#, Java, Python, TypeScript / JavaScript

Frameworks & Runtimes
Flutter, .NET, NestJS / Node.js

TOOLS & PLATFORMS

Git · Docker · AWS · GitHub Actions · GitLab CI · CircleCI · Unity · OpenGL · GitHub Copilot · MCP servers

LANGUAGES

Hungarian	Native	NAT
English	Proficient	C1
German	Independent	B2

INTERESTS

- Low-level & graphics code
- Game development
- Volleyball

AVAILABILITY

Available for **full-time roles from September 2027**, after completing my MSc at Trinity College Dublin.

PROFILE

Software developer and **MSc Computer Science** student at Trinity College Dublin (expected **September 2027**). Experience in **mobile, full-stack, and low-level systems**: C#/.NET REST APIs, test automation, Flutter/NestJS apps, and Rust graphics.

WORK EXPERIENCE

One Identity Hungary · May 2025 – Oct 2026
Software Developer
Budapest, Hungary · *Started as Software Tester*

- Developed **C#/.NET REST API v2** features and fixes for Active Roles (**Active Directory** / **Microsoft Entra ID**), with OpenAPI compatibility checks in CI.
- Designed and integrated an **end-to-end code-coverage framework across six test suites** for desktop, web, and Windows service components.
- Served as an **R&D escalation point for 20+ enterprise customer cases**; investigated root causes and provided fixes or workaround guidance to support.
- Developed reusable **GitHub Copilot skills and MCP tooling** for desktop UI testing, adopted in the product group's shared agent setup.

SELECTED PROJECTS

Jul 2025 – Present
KeepYourHabits Co-founder – habit-tracking mobile app – **Flutter, NestJS**

- Implemented onboarding, **shared habit groups**, ownership transfer, and **member progress tracking** across the app and API using agent-assisted development.
- Automated **Android/iOS releases** with GitHub Actions and Fastlane, and Docker-based backend deployment to **AWS**.

Aug 2023 – Present
Lumina Thesis – 2D game engine in **Rust** & **OpenGL**

- Built a custom **entity-component system (ECS)** with typed queries and separate logic/render threads communicating through bounded channels.
- Implemented **tessellation-based vegetation animation** and full-screen post-processing: god rays, vignette, and focal blur.

Apr 2024 – Nov 2024
Touch Co-founder – digital business-card app – **Flutter, NestJS, Swift**

- Implemented **Swift integrations** for NFC contact sharing, local profile storage, and Apple Wallet passes through Flutter platform channels.
- Built contact APIs and deep links in NestJS; automated Android/iOS deployment with **CircleCI**.

Feb 2025 – May 2025
Wild Trails Three-person university team – park simulation in **Unity, C#**

- Implemented terrain generation, road/lake placement, and save/load.

EDUCATION

Sep 2026 – Sep 2027 (expected)
MSc Computer Science – Augmented & Virtual Reality
Trinity College Dublin, Ireland

Jul 2023 – Jun 2026
BSc Computer Science
Eötvös Loránd University (ELTE), Faculty of Informatics, Budapest, Hungary

Sep 2025 – Jan 2026
Erasmus+ Exchange – Informatics Engineering
Universitat Politècnica de València (ETSINF), Spain
